

Moganjah

Emiliano Motta is a Mexican composer and music producer. He has made original film soundtracks for the last 20 years, and at the same time produced ambient, reggae and recently groovy African/tribal electronic music.

After traveling every year to Uganda since 2015, working with different artists and co-creating Nyege Nyege festival, he created his own music label in 2019, Makabila Umoja, that has built a great network of musicians. He also developed a live set full of clubby modern grooves with a nice African touch, with a deeply tribal and futuristic approach.

He has performed in many venues and festivals, like Nyege Nyege (UG), ABC Burkina Faso, Roskilde and Borderland (DK) and many others.

He has collaborated with great artists like Otim Alpha, Leo Palayeng, Makadem, Swordman Kitale, John Mutombo, Omutaba Gnoma, and many others.
